Its Motion was ſo very ſlow, that I had it above half a Minute in View; and therefore had Time enough to contemplate its Appearance fully, which was what is ſeen in the annexed Figure,

« Dischi volanti » nel 1492

Si hanno sorprese a non finire quando si legge la storia autentica dei Conclavi. Lo storico Infessura ha lasciato il ricordo di «un fatto assai strano» accaduto il 6 agosto 1492 alla vigilia del Conclave dal quale doveva uscire Alessandro VI: « Apparve un miracolo in cielo prima dell'ora terza: furono visti nel cielo verso oriente tre soli grandi e chiarissimi e assai fulgenti; e furono scorti da molte e diverse persone che si erano radunate a vedere. E i cardinali che entravano in Conclave si fermarono sulle scale di San Pietro... ». Come ben si vede un Conclave ha avuto anche... un contorno di «dischi volanti».

Tra storia e fantascienza un singolare episodio raccontato da Antonio Beatillo che mutua la strana apparizione di «ufo» da Giovanni Nauclero
